📁 PROJECTS

E-Commerce Dashboard ⤢
MERN stack
- Developed a comprehensive e-commerce dashboard using the MERN stack.
- Leveraged MongoDB for the database, Express for the backend, React for the frontend, and Node.js as the runtime environment.
- Created CRUD operations for managing products and categories.
- Implemented user authentication and authorization functionalities.

Atithi - Booking Engine
Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Developed a booking engine using the MERN stack in a team.
- Designed and built the admin dashboard for managing bookings.
- Created RESTful APIs and handled database operations.
- Contributed to both front-end and back-end development.

🧩 EXTRACURRICULAR ACTIVITIES

Volunteer Experience with NSS (National Service Scheme)
- Led the Water Management Committee during a 7-day NSS camp, ensuring a consistent water supply for all attendees.
- Successfully managed planning, distribution, and problem-solving with a team, contributing to a well-organized camp.
